Neurochemical Research —Volume 22, 1997

Neurochemical Research is devoted to the rapid publication of studies that use neurochemical methodology in research on the nervous system. The journal serves as a bridge between neurochemistry and all other fields of relevance in an effort to expand our understanding of the functions of the nervous system. The journal publishes papers in three categories—original articles, overviews, and comments.

EDITOR-IN-CHIEF
Abel Lajtha, Center for Neurochemistry, Orangeburg, New York

ASSOCIATE EDITORS
Nicolas G. Bazan, Louisiana State University, New Orleans, Louisiana
George Hashim, 900 Third Avenue, New York
Henry Sershen, Center for Neurochemistry, Orangeburg, New York

ASSOCIATE EDITOR FOR OVERVIEWS
George H. DeVries, Chicago Stritch School of Medicine, Hines, Illinois

EDITORS
Luciano Angelucci, University of Rome "La Sapienza", Italy
